

**Southern California Water
Utilities Association**
March Program

2009 Water Use Efficiency Legislation

**Speaker: Carolyn Schaffer, Associate Resource Specialist
Metropolitan Water District of Southern California**

Carolyn will be bringing us up to date on conservation legislation that will impact our water agencies. Many of us have heard about “20 X 2020,” or 20 percent conservation by the year 2020, but how will that be accomplished, what will happen if we fall short of that goal, and who will enforce it? Come learn more about 20 X 2020 and other conservation legislation. ***This is also a great program for your conservation staff.***
